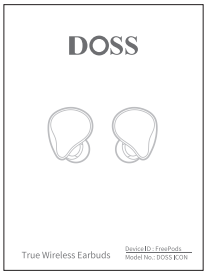
❸ DOSS ICON

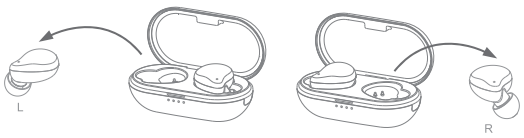
❹ Ear tips (S / M/ L)



❺ User Manual

Single-earbud Mode

Removing the right or left earbud from the charging case, it will automatically turn on, and select “ FreePods ” (Left earbud) or “ FreePods ” (Right earbud) in the Bluetooth list to connect earbuds.



Resetting of earbuds

Keep your earbuds in the charging case, and keep the charging case plugged in.
You can clear your earbuds' Bluetooth memory by pressing and hold the multi-function button for 8 seconds.
The left and right earbud's Bluetooth memories may need to be cleared individually, if you have used the earbuds in Single Earbud Mode.

Resetting of left earbud

Resetting of right earbud

Note: The earbuds are powered on & off individually.

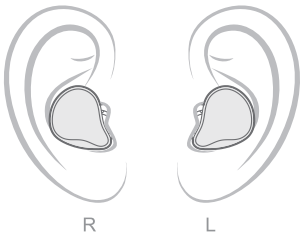
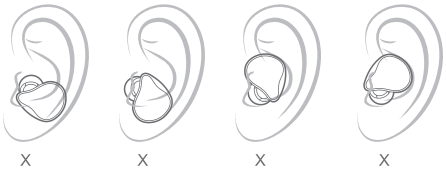
CORRECT



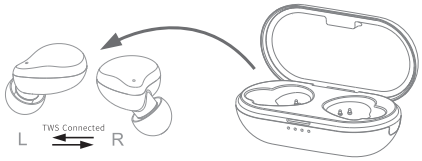
INCORRECT



Bluetooth Pairing

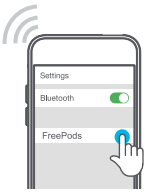
1. Auto-connecting

The earbuds switch on and connect to each other automatically when taken out of the charging case. And the earbuds will flash blue lights to indicate that the earbuds are automatically pairing to each other. Once paired successfully, one of the earbud will alternately flash the red light and blue light, and the other will flash blue light.



2. Connecting to Bluetooth device

Turn on the phone's Bluetooth function, and select " FreePods " in your Bluetooth list.



Note:

1. To manually switch on, touch the multi-function button on both earbuds for 2 secs.
2. If the earbuds have not successfully connected to Bluetooth for more than 5 minutes, they will automatically shut down.
3. The earbuds switch off automatically when placed back in the charging case.
4. Do not leave the left and right earbuds too far when you take out them from the charging case for pairing. The recommended distance is no more than 15 CM.
