MORE MUSIC, MORE POSSIBILITIES

Designed for discerning listeners, the WXC-70A brings modern streaming capabilities to your existing Hi-Fi system while preserving the exceptional fidelity, musicality and emotional connection that define great audio performance.

ALL YOUR ENTERTAINMENT, SEAMLESSLY UNIFIED

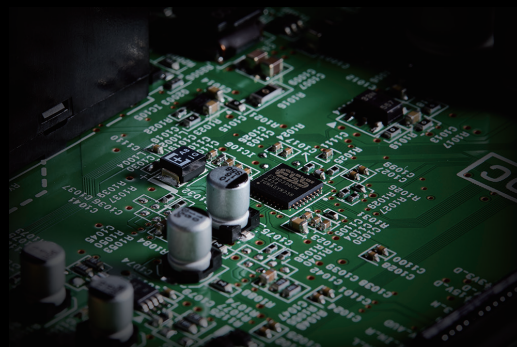

Whether you're streaming music, watching TV or enjoying connected audio sources, the WXC-70A brings everything together in one seamless listening experience.

BUILT ON A HI-FI LEGACY

Built on decades of Yamaha Hi-Fi expertise, the WXC-70A challenges expectations of what a compact component can achieve. Combining advanced audio engineering and refined craftsmanship, every detail is carefully considered in pursuit of expressive, high-fidelity sound.

PURE GROUND, PURE SOUND

Derived from the circuit design philosophies refined through decades of Hi-Fi development, the proprietary DAC on Pure Ground configuration reflects the kind of meticulous engineering that goes beyond conventional DAC implementation. By creating an exceptionally clean environment for delicate analog audio signals, it preserves integrity of subtle audio signals, resulting in greater fidelity, realism and musical nuance.

SOUND OPTIMIZED FOR YOUR SPACE

No two listening spaces are alike. Using the included calibration microphone, Yamaha YPAO™ room calibration technology analyzes your room's acoustics and automatically optimizes playback, while YPAO R.S.C. (Reflected Sound Control) helps manage early reflections that can affect stereo imaging and clarity. The result is a more natural, balanced soundstage that stays true to the original performance.

ELEGANCE IN EVERY CURVE

Built with the craftsmanship, structural integrity and meticulous attention to detail expected of a premium Hi-Fi component, the WXC-70A features a rigid aluminum enclosure and precisely engineered construction. The result is a product that feels reassuringly solid in hand, while its vibration resistant structure helps preserve musical detail and clarity for a cleaner, more expressive sound.

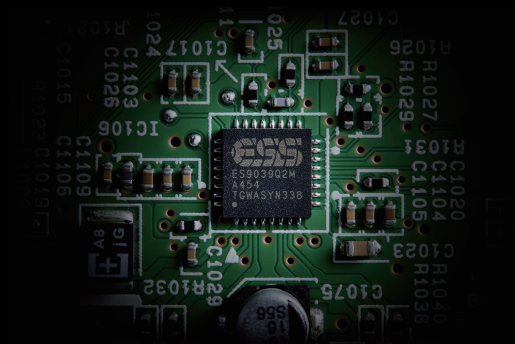

A PLEASURE TO CONTROL

Developed through extensive prototyping and refinement, every knob and switch is designed to deliver a smooth, tactile feel that makes every interaction more satisfying.

SONIC PRECISION STARTS WITHIN

At the heart of the unit, an audiophile-grade ESS SABRE ES9039Q2M DAC with 384 kHz / 32-bit processing delivers exceptional clarity, detail and dynamic range, revealing more of the emotion in every performance.

TAILORED FOR YOUR SYSTEM

Pre Amp Mode leverages Yamaha's advanced audio technologies, including YPAO, to maximize performance across a wide range of listening setups. Player Mode bypasses preamp functions for dedicated Hi-Fi systems.

SOUND WORTH WATCHING

SUPERIOR TV SOUND, MADE EASY

Enjoy high-quality TV audio through a simple one-cable HDMI eARC/ARC connection, with seamless power and volume control using your TV remote.

INTUITIVE INTERFACE

With the MusicCast app, included remote and a clear front-panel OLED display, it's easy to navigate sources, adjust settings and enjoy your favorite shows and music.

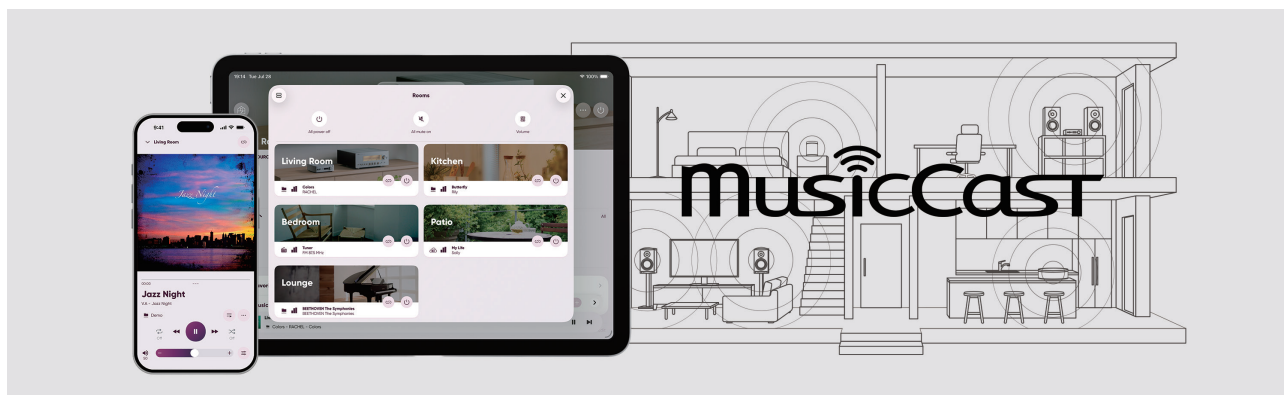

HEAR EVERY WORD

An adjustable Dialogue Level control enhances vocal clarity, making conversations easier to hear without raising overall volume. Whether you're watching movies, TV shows or sports, voices remain clear and intelligible.

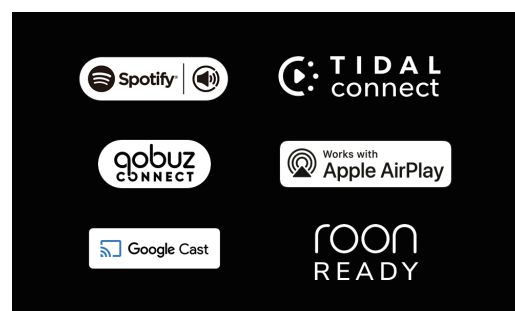

ONE APP, YOUR MUSIC EVERYWHERE

Control all your MusicCast devices from a single app. Choose sources, manage playback, and adjust settings for each room individually, or link rooms together to enjoy the same audio throughout your home. Stream music services and connected sources—like TV sound, vinyl and more—to where you want to listen.

STREAM IT ALL, YOUR WAY

Enjoy effortless Wi-Fi streaming with support for AirPlay 2, Google Cast, Spotify Connect, TIDAL Connect, Qobuz Connect, Roon Ready and more. Stream directly from the apps you already love, with access to hundreds of compatible music, podcast and audio services. Experience the convenience of native app control and stunning high-resolution sound.

INTEGRATION READY

SEAMLESS SMART HOME INTEGRATION

Designed to work seamlessly with leading home automation and control systems, making it easy to incorporate high-performance audio into professionally integrated smart home environments.

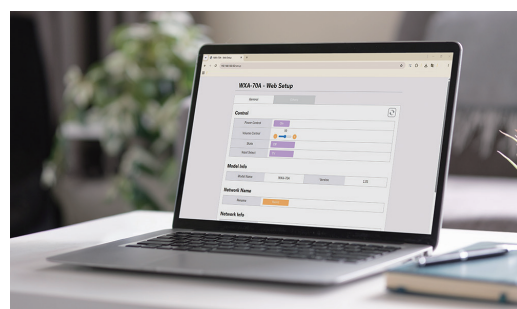

Control4

SMART HOME READY

ADVANCED SETUP, SIMPLIFIED

Built-in Web Setup enables convenient configuration through a standard web browser, providing installers with streamlined access to system settings, features and network configuration.

WIRELESS, WHEN YOU WANT IT

Wi-Fi and Bluetooth can be independently disabled during installation, helping ensure a consistent user experience and preventing unintended source selection.

RELIABLE IR INTEGRATION

A dedicated IR input supports direct connection to compatible control systems, enabling clean, reliable integration without external emitters.

12V TRIGGER

Synchronizes power control across compatible audio components, creating a more seamless integration.

SPECIFICATIONS

Input		Analog input (RCA), Optical, HDMI (CEC/eARC/ARC), LAN (Ethernet), USB Type-A (Music Playback/Firmware Update), YPAO mic input, Remote input
Output		Subwoofer output, Trigger out, Analog preout (RCA), Optical, Coaxial
Network section	File Format	MP3, WMA, MPEG-4 AAC, WAV, FLAC, ALAC, AIFF, DSD
	Wi-Fi	Server, Net Radio, AirPlay, Spotify Connect, TIDAL Connect, Google Cast, Roon Ready, Qobuz Connect
	Bluetooth	Yes (SBC/AAC)
YPAO		PEQ, Reflected Sound Control (R.S.C), YPAO Volume
Standby Power Consumption		2.0W
Dimensions (W x H x D)		220 x 73 x 267 mm
Weight		1.9kg
Accessories		Remote control, Batteries (AAA, LR03, UM-4), Power cable(2m), YPAO microphone(6m), Quick guide, Safety guide
